Mishaal Rafique

Lahore, Pakistan | l233044@lhr.nu.edu.pk | linkedin.com/in/mishaal-rafique-aa157b306

Professional Summary

Software Engineering student with hands-on experience building scalable web and mobile applications using React Native, Node.js, and Firebase. Skilled in team coordination and workflow management, with a strong focus on clean code, problem-solving, and contributing practical ideas.

Education

Bachelor of Science in Software Engineering Expected 2027
FAST National University of Computer and Emerging Sciences Lahore, Pakistan

Pre-Engineering 2020–2023
Punjab Group of Colleges Sahiwal, Pakistan

Technical Skills

Programming Languages: C++, Java, JavaScript, Python, SQL, Kotlin
Web and Mobile Development: React, React Native, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Android Studio
Backend and Databases: Node.js, Express.js, Firebase, MySQL, SQL Server
Development Tools: Git, Figma, Postman, JUnit, Selenium, SonarQube
Methodologies: Agile, Scrum, Test-Driven Development

Professional Experience

Mobile Developer – *UniMax Student Assistance App — Upwork* January 2025 – Present

- Engineered UX-friendly optimized UI screens and service modules using React Native
- Implemented modular component architecture improving code maintainability and enabling rapid feature deployment

Mobile Developer – *Harsh Vocab Builder App — Upwork* January 2025 – Present

- Designed and integrated advanced features including timestamp filters, view analytics dashboard, and Gemini AI-powered recommendations

Academic and Personal Projects

LogiSim Circuit Simulator 2025
Technologies: Java, JavaFX, OOP, Git, JUnit

- Built an interactive digital logic simulator with real-time circuit design and visualization
- Developed modular architecture for reusable circuit components
- Implemented live simulation, truth table generation, and circuit export
- Designed intuitive JavaFX UI with clean, color-coded wiring

CrimsonChain Blood Donation Platform 2024
Technologies: React Native, Firebase, REST APIs

- Developed full-featured blood donation app with real-time donor matching, appointment scheduling, and in-app notifications
- Implemented secure authentication and database management

HealVista Hospital Management System 2024
Technologies: React, Node.js, MySQL, Express

- Built comprehensive full-stack application with role-based access control for patients, doctors, and administrators

Personal Finance Tracker 2024
Technologies: C++, C#, SQL Server

- Created desktop application with data visualization for expense tracking and budget management

Candy Crush Console Game 2023
Technologies: C++

- Developed interactive console game with power-ups, scoring system, and ASCII-based user interface

Certifications

Agile Project Management HP
Responsive Web Design FreeCodeCamp
Lead Generation Chatbot using Chatfuel Coursera
